Harsh Gupta

Full Stack MERN Developer

Full Stack Developer with around 4.8 years of experience in developing and maintaining web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in building RESTful APIs, handling database operations, and implementing user authentication. Experienced in integrating third-party services, improving application performance, and ensuring cross-browser compatibility. Focused on writing clean, maintainable code and delivering reliable, production-ready solutions.

WORK EXPERIENCE

Senior Software Developer
Nexsys IT, Bengaluru

05/2026 – Present

- Completed training on the Neutrinos no-code/low-code platform (SSD, Alpha, and Reels) and developed insurance applications by configuring business workflows, master data, and platform components.
- Built and customized customer and internal insurance portals, developed Node.js/Express.js REST APIs, and integrated backend services with Neutrinos applications.

Full Stack Developer (Assistant Manager)
Canara HSBC Life Insurance, Gurugram

07/2025 – 02/2026 *7 months*

- Developed and maintained RESTful APIs using Node.js for a policy management platform enabling users to view policies, make payments, and raise service requests.
- Implemented new backend features based on business requirements, ensuring clean architecture and structured code practices.
- Debugged and resolved production-level issues by analyzing code and fixing defects to improve application stability.
- Contributed to the development of an internal Wellness Portal using React.js in a 2-member team, supporting internal user operations.
- Integrated MongoDB and Google Firebase for efficient data storage, retrieval, and real-time data handling.
- Followed best practices for writing modular, maintainable, and scalable code.

Full Stack MERN Developer
Atmegame, New Delhi

01/2023 – 07/2025 *2 years 7 months*

- Designed scalable web features for an online gaming platform using the MERN stack.
- Enhanced dynamic React components to enhance UI responsiveness and improve overall user interaction on the gaming platform.
- Built and integrated RESTful APIs using Node.js and Express.js to manage user data, game logic, and leaderboards for a platform serving millions of users; validated endpoints and data flow using Postman.
- Structured MongoDB collections and models using Mongoose for efficient handling of user profiles, scores, and gameplay analytics.
- Collaborated with UI/UX designers and testers to ensure functionality across devices and browsers.
- Managed code using Git for version control and coordinated updates through GitHub repositories.
- Regularly optimized application performance and fixed production issues to ensure smooth gameplay.

System Engineer (Developer)
Infosys, Pune

09/2021 - 12/2022 *1 year 3 months*

- Deployed a scalable MERN stack web application enabling user authentication, content browsing, and role-based access control.
- Built non-static, responsive UI components using React.js, Redux, Tailwind CSS, and Bootstrap, improving user engagement and usability.
- Created secure backend APIs to handle CRUD operations, session management, and role-based access control using Node.js, Express.js, and JWT authentication; focused on modular and reusable code design.
- Created an Admin Dashboard for managing users, content analytics, and system configurations with granular role-based permissions.
- Applied RESTful API architecture principles to ensure modularity, reusability, and maintainability of backend services.
- Conducted unit testing and API testing using Postman to validate data flow and ensure application reliability.

SKILLS

Frontend: React.js, Redux, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, Firebase, MySQL

Tools: GitHub, Postman, VS Code

EDUCATION

Masters in Business Administration (Finance)
Chandigarh University, Chandigarh
2022 – 2024 *Online Learning* *GPA 8.2*

Bachelor of Technology (B. Tech) in Information Technology
Acropolis Institute of Technology and Research, Indore
2017 – 2021 *Full Time* *GPA 7.9*

ACHIEVEMENTS

Research Publications:

- Published a research paper in *(IRJMETS)* International *Research Journal of Modernization in Engineering Technology and Science*– e-ISSN: 2582-5208 (2021)
- Published a paper numbered e-ISSN: 2582-5208 (2020) in *International Research Journal of Multidisciplinary Studies (IRJMS)*

CERTIFICATES

- **MongoDB Certified Associate Developer** – MongoDB (11/2025).
- **Official Training for MongoDB Associate Developer Exam** in MongoDB office.
- NPTEL certification in Database Management System (04/2019) by IIT Kharagpur.
- Microsoft Technology Associate (HTML, CS) certified (04/2019).
